

VMI Program

MTE is proud to offer a cloud-based inventory management system that provides our customers with a strong VMI program and provides the ability to have visibility at multiple inventory locations through out their facility. This is made possible through a highly customizable platform, limitless integration options, and a smooth implementation process. MTE has chosen to partner with Clear Spider over any other system because of the power and flexibility it has to accommodate any complexity or type of inventory management needs. Should you choose to implement our VMI program we will include a start up equipment kit at no cost. For additional equipment MTE will provide pricing at a discounted price.

Startup Kit Includes:

- RS30 Touch Scanner - Mobile Computer
- Protective boot - which provides an additional 1.5m drop resistance and 500 tumbles at 0.5m.
- Charging cradle - to support charging the device and spare battery.
- Micro to USB cable
- Spare Li-On rechargeable battery.
